E124

Artificial colourant linked to allergic reactions.

Maltodextrin

Hidden source of severe glycemic spikes.

High Fructose Corn Syrup

Compounding driver of lifestyle diseases.

Without real-time translation, we forfeit consumer empowerment and compound long-term public health crises.

Redefining how consumers evaluate products

The Status Quo	The EcoScan AI Approach
Manual reading & Googling chemicals	Instant photographic capture  
Overwhelming / High Friction	Zero-effort / Curated Insights  
Guesswork & Abandonment	Empowered, confident choices  

A real-time nutrition expert in your pocket

**A smart Telegram assistant
that instantly translates
chemical complexity into
health-focused clarity.**

Instant translation from chemical to clear

Not just an encyclopaedia—an interactive decision engine.

The lightweight orchestration behind the scan

Extracting raw data from visual chaos

Real-World Input	Structured Data Output
	<pre>{ "product_name": "Curved Tin Beans", "ingredients": "Navy Beans, Water, Tomato Puree, Sugar, Salt, Spices.", "nutrition_facts": { "serving_size": "1/2 cup (130g)", "calories": 140, "total_fat": "1g", "sodium": "450mg", "total_carbohydrate": "28g", "protein": "7g" }, "barcode": "012345678901", "expiry_date": "DEC 2025" }</pre>
Google Gemini 1.5 Pro (Vision) powers the OCR layer, flattening curved, low-contrast, and microscopic typography into perfect machine-readable data instantly.	

Synthesising health data with clinical precision

Claude 3.5 Sonnet cross-references chemical compounds against established nutritional science to generate immediate, highly accurate risk categorisations.

Scaling consumer empowerment through modular AI

By combining no-code orchestration with frontier vision models, EcoScan AI transforms a 10-second micro-interaction at the supermarket shelf into a highly scalable tool for macro-level public health intervention.

A functional MVP ready for deployment

- ✓ Fully integrated Telegram Bot environment.
- ✓ Seamless Make.com automation pipeline.
- ✓ Live Gemini 1.5 Pro Vision OCR integration.
- ✓ Live Claude 3.5 Sonnet analysis engine.

EcoScan AI is built, lightweight, and ready to immediately reduce consumer friction at scale.
